

**TO WHOM IT MAY CONCERN:**

**Miss. Michelle Santos Rieper** has been collaborating with the Office of Student Affairs at Escuela Técnica Superior de Ingenieros Informáticos, Universidad Politécnica de Madrid, where I am the coordinator.

She was a very good collaborator. She paid attention to the commissioned work, her attitude was excellent and she asked interesting questions that showed her wishes to go deeper in different subjects. I feel confident that she will succeed in any kind of new work, because she has got the talent and the interest to do it.

In addition to her initiative, motivation, interest and her very good ability to reason, Miss. Santos has good skills for personal relationships, she is always nice and polite. It is for these reasons that I strongly recommend her.

If you have any questions regarding this recommendation, please do not hesitate to contact me.
