To whom it may concern,

I have known **Michelle SANTOS** since September 2015 as Vice-Dean of Students Affairs of the School of Computer Science and Engineering, Universidad Politécnica de Madrid, where she gained a scholarship to participate in the everyday duties of my unit.

Michelle was selected for that position in a competitive process, obtaining the best qualification of the 14 candidates presented. Her technical skills, good level of English and social abilities were specially appreciated by the selection board to grant her with the position.

During the year she enjoyed the scholarship, she was involved in the organization of a number of activities promoting the improvement of academic and socio-cultural life in the campus. My valuation of Michelle cannot be better, mainly because of her ability to team working and good disposition showed in front of new challenges.

I fully support Michelle Santos application and would recommend you to grant her the position she is applying for. I am sure she will surpass your expectations. I think her selection will be advantageous for her to continue building a successful career, as well as for your organization.
